

Platform investing

 Select 

INDEPENDENT INVESTMENT CONSULTANCY ON A SINGLE PLATFORM

Working with multiple investment managers and platforms is complicated and inefficient.

Our Select service provides access to best-in-class active, passive and alternative investments on a single private banking platform that offers cash management, foreign exchange and lending.

Investment management, centralised.

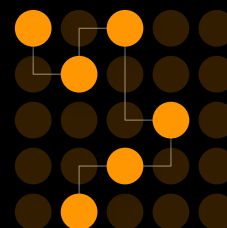

We're incredibly selective about who looks after our clients. All our Investment Consultants and Research Analysts are CFA or CISI accredited and have many years of relevant investment industry experience.

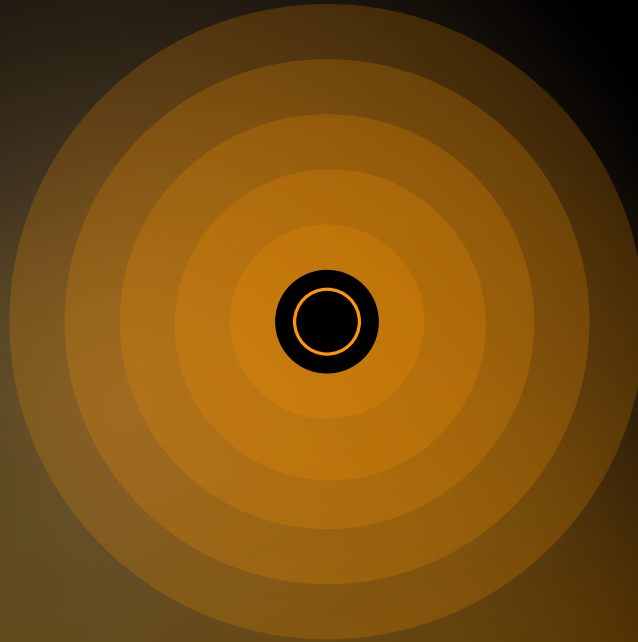

The team comprises of former Fund Managers, Stockbrokers, Accountants and Analysts operating within an Investment Committee framework that is independently chaired.

SELECT NOT RIGHT?

 Navigate 

Get independent advice, manager selection and monitoring across multiple managers and platforms.

SIMPLIFY

Centralised approach

Select provides best-in-class investment and banking solutions through a single wealth platform. This cuts through the complexity and cost of working with multiple investment counterparties without compromising client outcomes.

DIVERSIFY

Open architecture

We deliver public and private market investment strategies from the world's leading investment houses on one platform, each carefully selected by our Investment Committee from Enhance's global manager research programme.

ADAPT

Implement change

Client requirements evolve, but changing investment managers and products across different platforms has associated risks and costs. Select removes these challenges through centralisation and modern platform technology.

Next steps

The next step is for Enhance to provide a personalised presentation to introduce our Consultancy service.
