MANAGER RESEARCH: THE 5P SELECTION PROCESS

PERFORMANCE	PROCESS	PEOPLE	PRICE	PLANET
We only consider managers with strong risk-adjusted returns versus their benchmarks and peer groups, and filter out managers with substandard track records.	We evaluate how managers generate returns and whether their approach can be repeated consistently. A strong process is the best indicator of future performance.	Investment teams matter. It is people who ultimately manage money. We assess the experience, flair, diversity and stability of the teams we invest with.	Fees impact performance. We negotiate competitive rates for our clients whilst ensuring managers remain appropriately incentivised to deliver.	ESG (environmental, social and governance) must be integrated into investment decisions and corporate culture, not just documented in policies. We look for proof.
